

CAPEX detail by scenario (EUS): onshore pipeline vs. booster stations

Onshore pipeline (without insulation) Onshore insulation Booster (initial build) Booster (additional/retrofit)

* phase benchmark run (bm_sco2 / bm_dense_2), which predates the insulation feature (CAPEX onshore insulation = 0 there).
Data: analysis/EUS_full_analysis.xlsx, 'CAPEX detail - supercritical'/'CAPEX detail - liquid' tabs (EUS).
