

CAPEX detail: % deviation from SC-U / LP-U by scenario (EUS)

SC-U/LP-U -- 0% by definition (the reference). 'CAPEX onshore insulation' is omitted: its own deviation is undefined for every scenario (SC-U/LP-U have 0 insulation CAPEX by definition) -- see the 'CAPEX detail' tabs in EUS_full_analysis.xlsx for that row's absolute values instead.
